# LET'S TALK ABOUT THE LITTER BOX

Unfortunately, many cat parents overlook the importance of a clean litter box. But a clean litter box is what cats prefer and deserve. Cats are clean creatures. Just think about how many times cats groom each day!

I've scooped hundreds of litter boxes while working as a cat sitter. I've seen my fair share of "untidy" litter boxes. Lots of horrible smells that could choke out a black belt master.

But this experience has helped me fine-tune the best litter setup and cleaning routine. I only spend about 5 minutes each week cleaning Jericho's litter box.

First, cats prefer unscented litter. Scented litters only exist to make us happy. No one likes the smell of waste. But it's our responsibility to clean waste before it gets stinky. Rather than covering up the smell. Perfume on poops are still poops at the end of the day!

## "Cats are clean creatures".

Next, cats prefer naturally clumping litter. Clumping litter is preferred because it allows you to remove waste from the box. There are many non clay clumping litters on the market today!

Finally, ditch plastic. Plastic traps bacteria even with regular washing. Stainless steel boxes and metal scoops are much better than plastic.

Took me 30 minutes to clean this client's box!

**Jericho's litter box supplies include:**

- **Stainless steel box**
- **Metal litter scoop**
- **Ripple Rug bottom only**
- **DIY litter genie**
- **Walnut shell cat litter**

Shop for all litter supplies on Amazon:  
[US](#), [CA](#), [UK](#).

Chewy:

[Litter box](#)

[Scoop](#)

[Litter](#)

Visit [Ripple Rug's website](#) to get the bottom only (I use this as a litter mat).

Scoop after your cat goes, every time he goes.

Reshape that large mound after each scoop.  
Clean once weekly.
